Cohort-Centric Care Management Software

How can you create, scale, and manage an effective care management program with the level of resources, data access, and community integration you have currently?

SDLC Partners has created a software platform that helps innovative payers and provider organizations enable a sophisticated care management program.

Whether your program includes in-person, telephonic/telemedicine, email or mail engagement, our Care Management Platform, **CareVivo™** will help you assess, take action, and manage your entire cohort with technology that engages patients and members to stay involved and progressing with their health and wellness goals.

Produce high-trust, high-touch interactions and have the right conversation, right now.

How CareVivo™ Works

Connect.

People, communities, systems, and data come together in one place.

CareVivo™ places needed data at the point of interaction, bridging multiple systems across multiple organizations.

Interact.

Make every interaction count.

CareVivo™ harnesses the power of connectedness, including members, patients, family caregivers, community resources, and the multi-disciplined, multi-organizational care team.

Act.

Empower the entire team to engage and take ownership.

CareVivo™ focuses on the "next best action" with prioritized & optimized action plans and alerts.
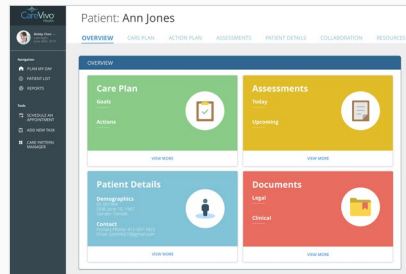

Key Features

CareVivo™ provides the best of user interface design, data security and architecture, as well as workflow automation to create a powerful hub for managing every aspect of your care management and patient engagement.
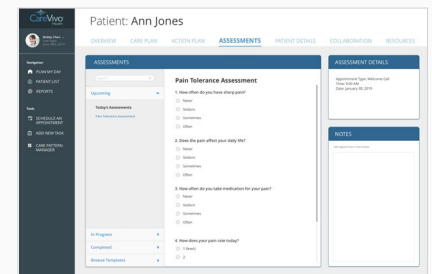

Onboard and optimize your team quickly and get to work helping patients on their journey to better health and quality of life.
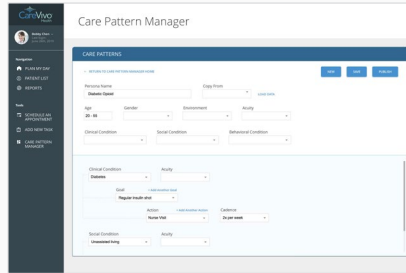

Fits Your Workflow

▶ Engagement Hub with demographics, action plans, and assessments

▶ "Manage My Day" calendaring

▶ Care Automation: EHR bots and pattern manager

▶ Scheduling bots (e.g., detox beds)

▶ Standard questionnaires and assessments available to personalize

▶ Smart speaker device-based questionnaires

▶ Personalized care plans
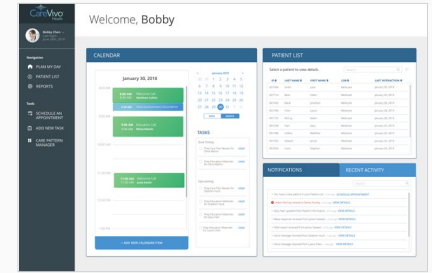

▶ Security management

The Engagement Hub gives handy access to all critical functions.

The Assessments feature offers many built-in and customizable questionnaires – or add your own.

The Action Plans section displays top goals for each patient and allows you to create action plans quickly.

The "Manage My Day" Hub conveniently highlights priorities – patients, notifications, calendar.

CareVivo™ will help your care management program and team face daily challenges with confidence by having the right tools and data at their fingertips.

Enhance your care management program with robust technology that is flexible and can scale and grow as your needs change. Gain operational efficiency while reducing your administrative burden.
